TRIP REPORT

NAME OF FACILITY: J.P. Saad Nashville SITE #: 19-533

OWNER OF FACILITY: Ellis Saad

COUNTY: Davidson CITY: Nashville DATE: 5/20/94

PURPOSE OF VISIT:

INDIVIDUALS CONTACTED:

OTHER DSF PERSONNEL PRESENT: C.Greene, B. Powell, Fred Stroud (EPA), and Wilda Cobb (EPA, ORC).

WEATHER CONDITIONS: Sunny, Mild

SAMPLES TAKEN: No PHOTOS TAKEN: Yes

COMMENTS:

Entry was made onto the property of Mr. Ellis Saad under joint EPA/TDSF authority. This action was deemed necessary due to a threat of release of a hazardous substance to the environment from an oil spreading tank that had been observed leaking.

1125- An attempt was made by Fred Stroud to access the site by using a key obtained from the Saad Site Steering Committee. This attempt was unsuccessful.

1132- TDSF personnel cut the chain to the gate and made entry to the site. Wilda Cobb was first to enter the site.

1135- It was determined that the oil spreader presented some threat but not enough to warrant removal or impoundment.

1147- EPA lock placed in series in the gate chain to provide future entry to the site.

1200- DSF off-site.
